Talking Book Topics

As with *Flora and Birds*, *Bugs* is not a biological guide but a richly-illustrated cultural one, seen through the eyes of writers, musicians, artists and naturalists - from the great Tudor naturalist, Thomas Muffet (father of Little Miss Muffet) to Irvine Welsh's talking tapeworm in *Filth* - as well as contributions by ordinary men and women who are fascinated by creepy-crawlies of all kinds. The book is structured along a roughly evolving path, from simple cell life-forms - amoeba, worms, crustaceans (proof, say the authors, of 'just how far you can go on very little') - to bugs we all might recognise - spiders, butterflies, bees - and back into the water to meet molluscs and 'almost-fish'... The book works so triumphantly because author Peter Marren has examined bugs in the dusty corners of our houses and gardens as well as traversing mountains, lakes and fields. In addition to the fascinating habits of the bug world, he also includes the eccentric behaviour of the bug obsessives themselves. But of course, the true heroes of the book are the bugs themselves- the nimble-dicks, clock ladies and coffin-cutters. From the Boring Sponge (its official name!) to the Mermaid's Glove and Penis Worm, via the glamorous Dark Crimson Underwing and Ruby-Tailed Wasp - this rich compendium of bugs is a must not only for naturalists but for anyone who cares about the crawling, buzzing swarms at our feet.

Confronting Bullying

In this second edition of *Becoming a Literacy Leader: Supporting Learning and Change*, author Jennifer Allen reflects on her work as a literacy specialist and how the role has evolved in the decade since she wrote the first edition. Her experiences can apply to all school leaders including principals, coaches, teachers, support staff, and office administrators. Allen focuses on three ideas to describe her work: Layered Leadership, the multitude of supports in place for teachers to encourage learning and change within schools; Shared experiences that develop community and develop common understanding of practices, curriculum, and assessment; Importance of 'rowing in the same direction' in that literacy coaches and leaders stay interconnected and aligned to the goals of the school. Allen knows the challenges of teachers face and advocates literacy coaches implement these layers of support within a school, including in-class support, curriculum support and assessment, study group facilitation, and the cultivation of teacher leadership. In *Becoming a Literacy Leader*, she provides an explicit framework for implementing these layers of coaching and explains how administrators can use the literacy leader position to build and sustain change within their

schools. This book will be the road map for how literacy leaders and coaches approach their work with purpose and intention. Online videos that accompany the book bring the text alive by showing readers what coaching looks and sounds like.
